I liked the fact that I didn't need to know where to go to look. And that I could access information that isn't available from Google. Just Keep Doing it!!

I like that I could speak with a librarian - she gave information I didn't ask for that may prove to be very useful. Our daughter is autistic - we are seeking ASL videos - lynne [the librarian] was helpful

It was fast and easy. I had been searching for some rather obscure information for weeks (approximately 80 man hours) & the librarian was able to locate the info quickly, and with even more specific information than I dared to hope could be found! This is a wonderful and invaluable resource! thank you!!!!

It was fast and talking to a live person was much more efficient than roaming around yahoo or google for hours trying to find information by typing in keywords. I felt guilty that someone else was doing the work, but really there wasn't much info that I found myself about my question. I needed help and I got it....This is a wonderful service. I'll have to spread the word!

- 10 Pharmaceutical Industry specialist for compliance, Female, 36-59 (12:15pm)**
It was fast, intelligent and accurate. I was looking up an ISO requirement that is specific to the pharmaceutical industry. The librarian who assisted me asked me if I had visited certain websites. Those suggestions showed an understanding of my question that suprized me. I thought I was going to have to explain a lot more about my request. As it was she directed me to everywhere I had already looked and found three more sites to check as well as looking for hard copies in local libraries. Impressive!

The librarian from Cumberland was very helpful. I asked him for help that would support my business plan, and he offered additional resources on registering my business. He was patient as well. I liked that I didn't have to leave my business. Thanks!
